

FSA Dues Collection for Members on LTD

FSA members will not be assessed union dues on LTD allowances.

Rationale:

Members pay their own LTD premiums from income which has already been assessed union dues. This would impose an inequitable and unfair burden on members already in an unfortunate circumstance.

Note:

It is understood that members may continue to draw on the full services of the FSA when they are on LTD status without cost so long as their LTD status originates from a claim funded from income earned while a member of the FSA bargaining unit, and for which income union dues have been paid.

Approved by the executive committee - November 26, 2003
